Across the Middle East by air and land	Laurence Kimpton	King's Lynn	11/17

I hope this list covers all speakers who I believe are still around. A call to the relevant host society secretary will help you find the details of a potential speaker/display. Some speakers may not wish to travel longer distances or travel at night in the winter months, although I note that this is already reflected in society programmes.

When it comes to finding judges for competition evenings – and outside judges bring a supportive and developmental approach to competition entries – some are also prepared to offer a short display as well as their judgements on your members' exhibits.
